Ideas for Leading Questions: Taking Stock

Do suppliers make interoperability harder than it should be?

**What is currently a
complete non-
interoperable
(fragmented) mess?**

Ideas for Leading Questions: Taking Stock

**Are users assured or
scared by current
interoperability
testing?**

**Could we step-change
eHealth interoperability
by borrowing methods
from other fields?**

**Which approaches are
just too hard/high
barrier?**

Ideas for Leading Questions: Taking Stock

What things have you heard here today that might fly/might not fly in the UK and why?

Ideas for Leading Questions: Taking Stock

If we need to pick a stack of **single winning standards, what would be on the list? ...and the turkeys?**

Ideas for Leading Questions: Taking Stock

**What endgame(s) would
make good targets for
collaborative
interoperability?**
