# Adaptation of the funding approach

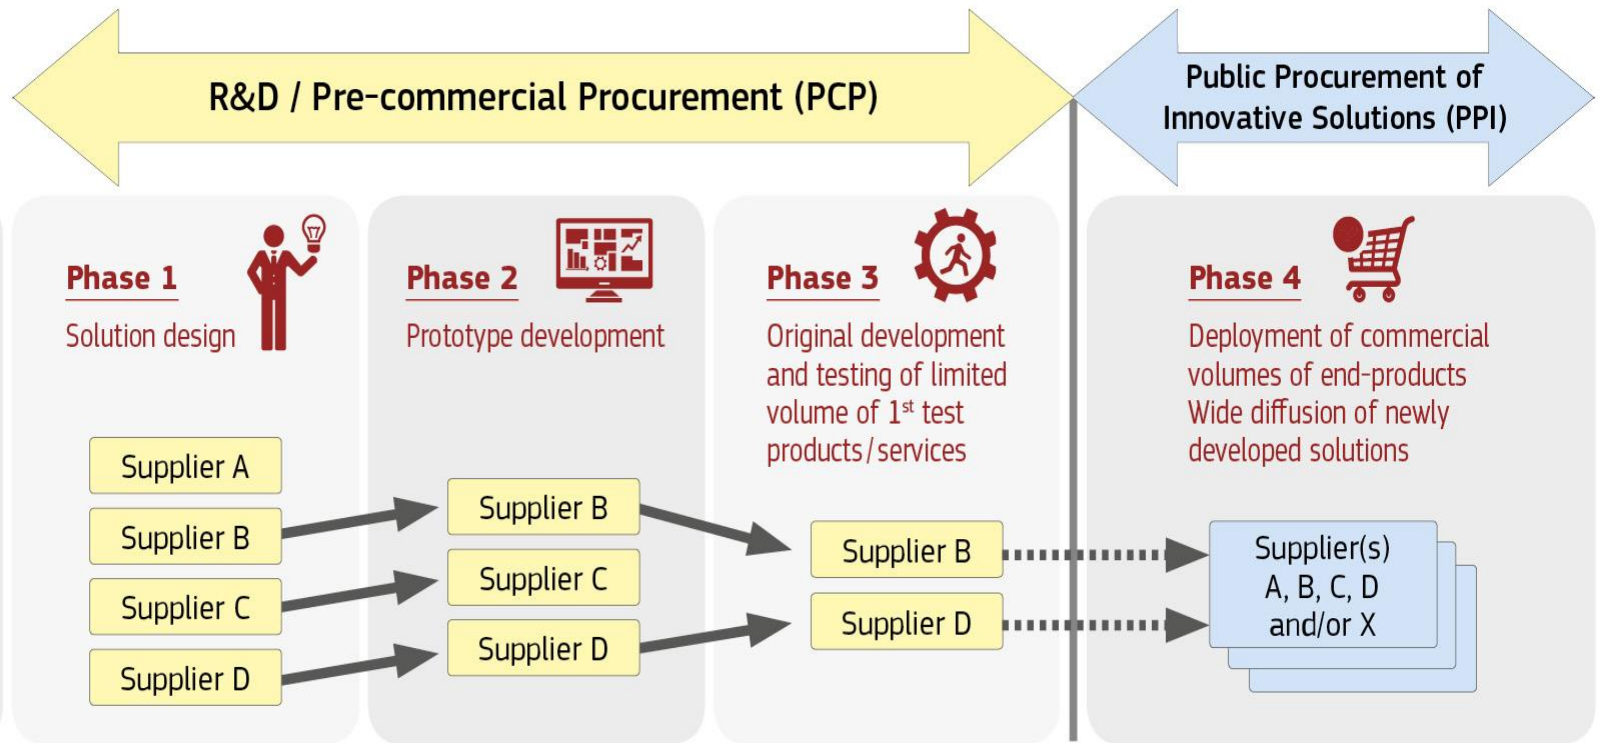

- Supply side
- Speed up time-to-market for innovative solutions that address concrete public sector needs.
  - Create growth and jobs in Europe, support R&D in Europe. Open opportunities for industry & researchers to take international leadership in new markets
- Demand side
- Speed up public sector modernization. Improve the quality and efficiency of public services with breakthrough solutions.
  - Address issues of common European interest together. Enable procurers with similar needs to share the costs of challenging the market to develop new ICT based solutions.

# Innovation Procurement = PCP + PPI Complementarity

- **PCP** to steer the development of solutions towards concrete public sector needs, whilst comparing/validating alternative solution approaches from various vendors
- **PPI** to act as launching customer / early adopter / first buyer of innovative commercial end-solutions newly arriving on the market

# Eligible activities / Who can participate

## ***PCP Co-fund actions cover***

### *A. Preparation Stage*

Coordination and networking activities (preparation of the tender docs etc)

### *B. Execution Stage*

Joint PCP procurement, validation of solutions and further coordination and networking activities (e.g. contribution to standardization, certification etc)

## ***Who can participate***

- The buyers group (required) that provide the financial commitments for PCP
- One lead procurer (required) that leads/coordinates the PCP procurement
- Other beneficiaries that do not participate in the buyers group but assist the procurers in the networking/coordination activities (possible): e.g. end-users

Any public / private entity can participate as beneficiary in the EU project provided that it won't participate as supplier in the PCP/PPI procurement

# Minimum participation requirement

**Minimum 3 independent participants from 3 different MS or AC, of which minimum 2 public procurers (buyers group) from 2 different MS or AC**

**Reimbursement direct costs:
