

# “Trillium” Team: believers, builders, entrepreneurs

**Standards**

**eStandards: eHealth Standards & Profiles in Action for Europe and beyond**

# Vision of *e*Standards?

---

**Think** of a global eHealth ecosystem where:

- **people** (digital natives and immigrants) receive timely safe and informed health care, anywhere around the globe
- **interoperability assets** fuel **creativity, entrepreneurship, and innovation**

*e***Standards:**

- **nurture** large-scale eHealth deployments and
- enable **co-creation** on a trusted **provider-vendor dialog** on costs, plans, and **great expectations.**

# The How of *e*Standards

- **Alignment of eHealth standards**
  - accelerate knowledge-sharing, and promote wide adoption of standards.
- **Evidence-based Roadmap**
  - Convergence, iterative consolidation, broad acceptance of eStandards
- **Quality Management System**
  - interoperability testing & certification of eHealth systems.
- **Coexistence of standards in large-scale eHealth deployment**
- **EU/US MoU roadmap**
  - Influence global standards
  - Boost competitiveness
  - Fuel innovation
- **Socio-economic aspects of interoperability**
  - language for user/vendor co-making' in trust

# The What of *e*Standards

---

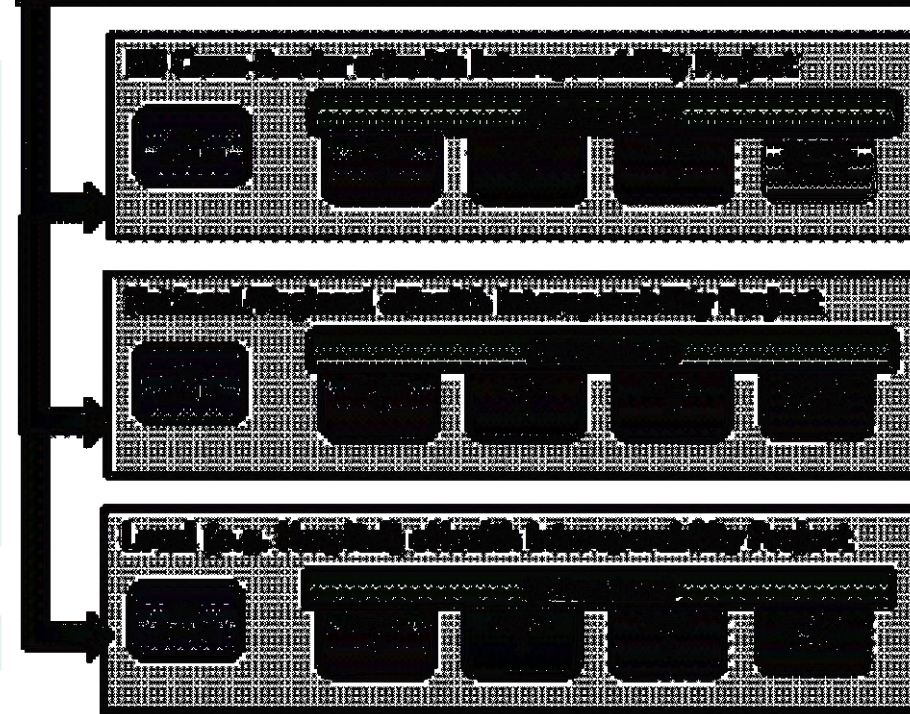

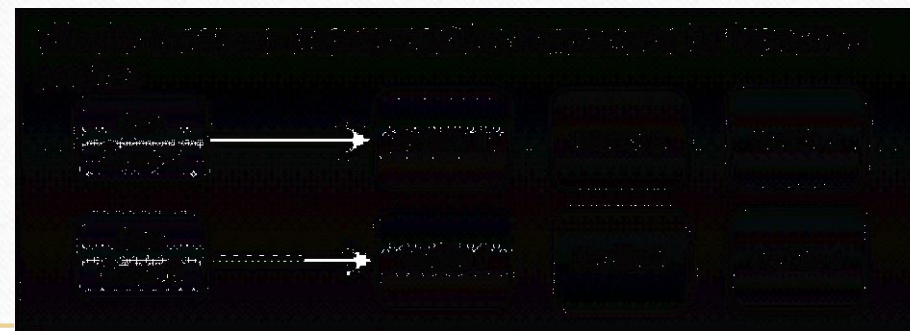

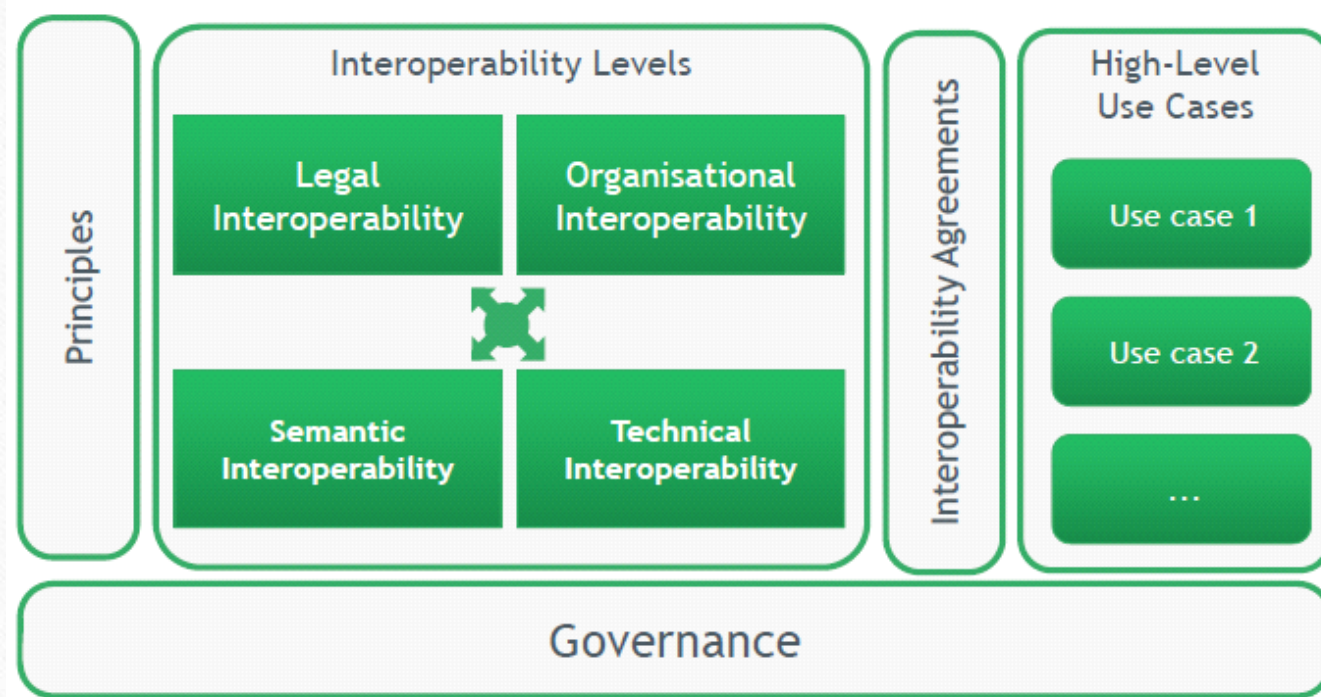

- Our **ambition** is to strengthen Europe's **voice** and impact
  - reinforcing the **bridges** across the Atlantic, **globally** and **among MS**
- The **expected results** - pragmatic steps toward alignment and convergence.
  - **white paper** on the need for formal standards
  - **Guideline** addressing how to work with:
    - clinical content in profiles for large-scale eHealth deployments
    - **eStandards Roadmap** and evidence base (**iterative consolidation**)
